

# Plan for Nurse Staffing & Nurse Care

Being a patient in a hospital can be stressful. During a hospital stay a patient will see many different caregivers. BroMenn Healthcare is proud to provide a team of caring and compassionate professionals to provide nursing care to our patients. BroMenn has established the following Plan for Nursing Staffing and Nursing Care. This staffing plan has been established taking into consideration the varied and complex needs of our patients. *Please remember:* Each patient is unique and his or her condition may change from hour-to-hour or shift-to-shift, thereby requiring changes to the staffing plans outlined here. This posting is designed to show you – on a unit-by-unit basis– the nursing staff available to help you or a loved one during a hospital stay.

Nursing Unit	Average Daily Census	Nursing Staff	Scheduled Hours	Shift Length	M	T	W	Th	F	S	S
Cardiovascular Care Unit	12	RN/LPN	7am-7pm	12 hours	4	4	4	4	4	4	4
		RN/LPN	7pm-7am	12 hours	3	3	3	3	3	3	3
